

# CALIS e-SMS

Is dealing with paper files taking up too much of your staff's time?

CAL Internet Services, Inc. has a student management system – called CALIS e-SMS – that is an advanced web-based school administration system for the effective management of special education schools. We can customize CALIS e-SMS to give you a product that complies with your school procedures and standards.

## Save time and money with CALIS e-SMS!

CALIS e-SMS can help your school automate the most important part of its daily routines. This product allows your staff to electronically input student information and generate reports. CALIS e-SMS also provides easy access to student information such as demographics, enrollment, scheduling, daily attendance, billing, transportation and emergency health. It enables teachers and administrators to plan and revise student education plans and other special education documents as needed.

This software allows you to access and update student and employee information; schedule and monitor IEP's; administer and monitor attendance; administer and monitor medications; schedule and monitor transportation; access and list emergency information; generate report cards; and produce customized reports. It even helps you create a newsletter that communicates to students and their parents.

Find out how this robust software can make your staff's life easier and allow your school to operate more efficiently by scheduling an exploratory meeting with CAL Internet Services, Inc. We guarantee you will save time and money with CALIS e-SMS!

# Reliable support.

At CAL Internet Services, Inc., we understand that the most important part of your day is educating your students. You don't need a complicated system that gets in the way of your staffs' productivity and you certainly don't need a long, complicated installation project. That's why you can implement this powerful software in phases, automating tasks as needed.

Let us help you implement a system that best meets your needs, not someone else's. We are happy to meet with you and gather all your requirements before anything gets underway. We find this ensures satisfied customers.

And if you need technical support for CALIS e-SMS, we have knowledgeable and patient staff on hand to help you through any problem.

*"Our Internet-based tracking system designed by CAL Internet Services, Inc. has been one of the best investments we have made in our business. The flexibility, accuracy and time saving features have increased the efficiency and productivity of our private non-public school. We are grateful to have found such a program designer who listened to our needs and put them into a user-friendly format. We highly recommend CALIS to design a system to meet the individual needs of your business."*

President - Guiding Hands School, Inc.

# Trusted company.

## Features
